PROFESSIONAL SUMMARY

AWS Certified Solutions Architect with experience designing, deploying, securing, and optimizing cloud solutions across AWS environments. Skilled in cloud architecture, migration planning, IAM, networking, infrastructure provisioning, security and compliance, and cross-functional stakeholder communication. Combines engineering and business administration education with hands-on experience translating business and technical requirements into practical cloud solutions.

CORE COMPETENCIES

AWS Cloud Architecture | Cloud Migration & Adoption | Infrastructure Provisioning | AWS IAM & Identity Management | VPC & Network Architecture | EC2, EBS, S3 & AMI | Security & Compliance | Cloud Cost & Performance Optimization | Requirements Gathering | Enterprise Architecture | Stakeholder Communication | Project Management | Technical Documentation | Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Solutions Architect | McOham Engineering (Remote) July 2025 – Present

- Design and implement cloud-based solutions aligned with business requirements, technical objectives, security policies, and industry best practices.
- Develop architecture frameworks, cloud adoption strategies, and migration roadmaps to support long-term cloud transformation.
- Administer AWS Identity and Access Management (IAM), including enterprise-level users, groups, roles, and policies.
- Provision and manage AWS resources, including EC2, VPC, EBS, AMI, S3, and subnets, along with assigned operational tasks.
- Configure, deploy, support, and harden AWS cloud services, including AWS root-account security controls.
- Collaborate with developers, DevOps engineers, and security teams to align cloud implementations with project requirements.
- Support security and compliance initiatives covering application security, data protection, cryptography, key management, IAM, and network security across SaaS, IaaS, and PaaS environments.
- Assess, implement, optimize, and document security technologies and cloud processes.
- Translate complex technical requirements into clear communication for internal and external stakeholders with varying levels of technical expertise.

Sales Representative | IDO Enterprises, Abuja, F.C.T. January 2014 – December 2018

- Developed and drove sales activities to support revenue targets.
- Sourced and procured materials required for product offerings.
- Maintained accurate and organized records, documentation, and business information.
- Provided professional customer service and supported positive client experiences.

EDUCATION

Bachelor of Engineering (B.Eng.), Chemical Engineering | Federal University of Technology, Minna March 2019 – January 2024

Associate of Science (AS), Business Administration | University of the People, Pasadena, CA September 2022 – September 2026

VOLUNTEER & LEADERSHIP EXPERIENCE

Radio Presenter | Search FM 92.3, Niger State, Nigeria February 2021 – 2024

- Developed and implemented lifestyle and entertainment content that expanded listenership beyond the university campus.
- Hosted entertainment programs including Witty Wednesday, Naija Flavour, and Saturday Countdown.
- Conducted data analysis for on-air programs and supported both on-air and off-air production.
- Collaborated with other departments to align programming and station goals.

- Coordinated remote broadcasts for special events, including technical equipment and event logistics.
- Curated relevant live-broadcast content and conducted interviews with local artists and community leaders.
- Developed promotional strategies for on-air segments to increase audience interaction.

Head of Broadcasting | OBS 52.5FM – NYSC Orientation Camp, Lagos State September 2025 – October 2025

- Supervised daily broadcasting operations, ensuring timely announcements, quality programming, and reliable technical delivery.
- Led and coordinated on-air personalities and sound engineers, delegated responsibilities, and maintained professional broadcast standards.
- Developed and presented news bulletins, interviews, and entertainment segments for corps members.
- Managed communication between the Orientation Broadcasting Service (OBS) and camp officials, supporting accurate dissemination of official information to more than 2,000 corps members.
- Trained and mentored junior broadcasters in public speaking, content scripting, and sound production.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate | June 2025
- AWS Certified Cloud Practitioner | September 2023
- Jobberman Soft-Skills Training | September 2022
